

Post-Treatment Botox

- Do NOT manipulate the treated area for 3 hours following treatment. Do NOT receive facial/laser treatments or microdermabrasion after Botox injections for at least 10 days. Ask your provider if you are not sure about the time frame of certain services.
- Some providers believe that smiling and frowning right after Botox treatments helps the Botox find its way to the muscle into which it was injected after treated.
- Do NOT lie down for 4 hours after your Botox treatment. This will prevent the Botox from tracking into the orbit of your eye and causing drooping eyelid.
- It can take approximately 4 to 7 days for results to be seen. If the desired result is not seen after 2 weeks of your treatment you may need additional Botox. You are charged for the amount of product used. Therefore, you will be charged for a product used during any touch-up or subsequent appointments.
- Do NOT perform activities involving straining, heavy lifting, or vigorous exercise for 6 hours after treatment. This will keep the Botox in the injected area and not elsewhere.

Post-Treatment Instructions Dermal Filler

- Avoid significant movement or massage of the treated area. Unless instructed by the provider.
- Avoid strenuous exercise for 24 hours.
- Avoid extensive sun or heat for 72 hours.
- Avoid consuming excess amounts of alcohol or salts to avoid excess swelling.
- If you have swelling you may apply a cool compress for 15 minutes each hour.
- Use Tylenol for discomfort.
- Try to sleep face up and slightly elevated if you experience swelling.
- Take Arnica to help the bruising and swelling, start at least 2 days prior to injections.
